181 LF

Install new shoe molding/quarter round

Please Note: Inform customer that there will be a height difference between rooms. If this is not acceptable, additional charges for build up or rip up will apply. See diagram for more information. Please discuss with installer and customer.

Resolution: thd will review

Please Note:

- **Appliance(s) may not have enough clearance in the following rooms: KITCHEN. Installers are unable to alter cabinets or counters. If the new flooring is adding height to the floor, it is possible the appliance will not fit after install.**
- **The following rooms have a wood subfloor of unknown type: FOYER, DR/LR/LW HALL/HALLWA, KITCHEN, PANTRY. If the subfloor is made of particle board, additional charges for plywood install will be required.**
- **Once existing flooring is removed, installers might discover defects/conditions that need to be addressed. If that is the case, additional charges may apply.**
- **Floor may be unlevel and may require additional labor. Unable to inspect due to existing carpet down.**

Labor Total \$1,882.80

			Credit for Deposit/Measure	-\$50.00
			TOTAL	\$4,000.37

Flooring Installation: What to Expect

GETTING READY FOR THE INSTALLATION

Now that you've completed your payment, your order will be sent to the flooring manufacturer and to the Authorized Service Provider. Once your flooring products are delivered to the Authorized Service Provider, he/she will contact you to schedule your installation date and time. Keep in mind that different types of flooring have differing lead times. Please ask your store's Flooring Specialist for details on lead times.

What is requested of me BEFORE the installation?

The following information is a checklist of items to prepare your home for your new flooring. Proper preparation helps the installation go smoothly and efficiently Preparation.

- Empty all closets (clothes must be at least 4' up from the floor) receiving the new floor covering
- Remove all items from underneath beds and remove bed coverings
- Remove lamps, knickknacks, glassware from china cabinets, books from bookcases
- Remove all pictures and mirrors from walls, Disconnect and move all computers, stereos, TVs, VCRs, DVD equipment, or any other electronics, Inform the measurer and installer of all wires located under the carpet or along baseboards, Check for cable wire connections under existing floor covering(s)

LET'S GET READY BEFORE YOUR FLOOR INSTALLATION >

Basic Furniture

Basic or standard furniture includes most common items such as disassembled beds, dressers, end tables, dining tables, and couches. All electronics including freestanding televisions and a/v equipment should be disconnected. Though included in basic furniture, it is recommended that these items are moved prior to installation to ensure the safety of your item.

Beds

Beds should be disassembled, so that the installer can move them. However if you are unable to do so, our team can disassemble and reassemble most beds for an additional fee (this includes four poster beds, iron/brass frames, bunk beds, captains beds and daybeds). We cannot move or disassemble/reassemble beds such as hospital, sleep number and other electric beds.

Disassembly/Reassembly

Similar to beds, wall units, entertainment centers and dressers with detachable mirrors should be cleared, disassembled and staged for moving prior to installation day. If you are unable to disassemble, our team can disassemble and reassemble most items for an additional fee (excludes glass china cabinets).

Unless specifically noted on order, please follow these guidelines. Beds must be broken down. Please carefully pack away and move all smaller items such as, china, figurines, table-top pictures and any breakables. Coffee tables, end tables or any other furniture that must be moved to install flooring should be clear of all items. Service providers are unable to move electronics, please move them prior to your installation unless otherwise noted. Finally, make sure there are no low-hanging clothes in the closets. If the home is not properly prepared, your installation could be delayed. If you have any questions, please give us a call!

Removal of Existing Flooring

If you have elected not to have the installers remove your existing flooring, you must have this done

before the installation (please call your store's Project Expeditor if you wish to add this service)

Proper Power & Temperature

Make sure that adequate power, light, water, ventilation, and heat or air conditioning will be available during the installation. Temperature at the site should be maintained at or near occupancy levels of 65 to 75 degrees for 3 days prior to the installation and during the installation period. For laminate and wood, humidity levels should be maintained between 35-55%

Secured Premises (Condominiums and Gated Communities)

Please check with your building management for parking accessibility and delivery times for your installation (such as elevators, service entrances, front desk procedures, etc.).

Please inform your Installation Specialist if there are special parking needs

Painting and Construction (for newly constructed rooms/houses)

Be sure all construction is completely closed in with drywall and plaster finish. Allow one week for freshly painted areas to dry and cure before the flooring installation date

Cancellation and Schedule Changes

If you have any issues with your installation date and need to reschedule, call The Home Depot as soon as possible in order to not incur any additional cancellation charges

WHAT SHOULD I EXPECT DURING THE INSTALLATION?

Flooring installation is a construction process which is customized to fit the style of your home. As in any construction process, there is always a chance of unforeseen issues. Some issues cannot be detected until the installation process has begun (i.e. moisture damage, floors with structural damage, asbestos floors, etc). If unforeseen issues are discovered upon the removal of current flooring, a Change Order may be required and additional charges may apply to the installation.

Product Inspection

Once the flooring product(s) have been delivered to you, it is recommended to inspect the materials to ensure that everything is as ordered prior to the installation.

An adult over 18 years of age with the authority to make decisions must be present at the time of installation. Once the installation begins, the entire process takes an average of 1 to 5 business days. This includes:

- Light preparation of existing floor
- Installation of the new flooring
- Inspection of the finished flooring

Because flooring installation is a construction process, expect loud noise, residual dust, and no usable access to the installed room(s) during the installation.

AFTER THE INSTALLATION

After the new flooring installation is complete, inspect the work by conducting a walk through with the Authorized Service Provider. Please express any concerns at this time to the Authorized Service Provider

Although the Authorized Service Providers are cautious and careful, normal installation methods may slightly scuff the existing baseboards or walls. Please expect to do minor touch-up painting after the installation

Inspect all doorways where flooring was installed. If you have purchased a thicker carpet, carpet pad, or if a new subfloor was placed on top of an existing subfloor, you may need to have your doors trimmed to accommodate the new flooring height level.

Sign the Customer Acceptance form, indicating that the installation has been completed to your satisfaction

Adhesives used for the installation can produce strong odors. It may be necessary to ventilate your home after the installation.

Changing your air filters is an important follow-up to your installation

Customer Satisfaction

Your satisfaction is very important to us and we want to ensure that you have a great experience with The Home Depot. If any issues or concerns arise during or after the installation that cannot be resolved by your Project Expeditor or by the Authorized Service Provider, please contact The Home Depot store and ask to speak to the Store Manager. If issues have still not been resolved to your satisfaction, please contact the Customer Care Department at **1-800-553-3199**.

MinPayDisclosure: Payments as low as \$145.00 per month Making only this payment amount each month will require 224 payments totaling \$13096.20 to pay off the purchase balance. The advertised minimum monthly payment is an estimate of the minimum monthly payment required based on the purchase price of the item, does not include taxes or other charges and is based on APR. The actual required minimum payment for your account may be more or less than the amount shown based on

changes in your APR, existing balances or making additional transactions, including optional fees billed to the account. You can always pay more than the amount indicated since the more you pay each month, the quicker your balance will be repaid. See card agreement for details. Offer is only valid for consumer accounts in good standing; is subject to change without notice; see store associate for details. *With credit approval for qualifying purchase made on The Home Depot or EXPO Design Center Consumer Credit Card. 17.99% - 26.99% APR. Minimum interest charge:\$2. See card agreement for details including APR applicable to you.

*EqualPayDisclosure: Making 6 suggested payments of \$667 would pay the purchase amount listed above by the end of the promotion. *With credit approval for qualifying purchases made on The Home Depot or EXPO Design Center Consumer Credit Card, 17.99% - 26.99% APR. Minimum interest charge: \$2. See card agreement for details including APR applicable to you. Offer is only valid for consumer accounts. 6 months everyday credit offer is subject to change without notice. Minimum payments required. Offer only valid at homedepot.com and in The Home Depot retail stores. The suggested monthly payment stated is only an estimate based on listed purchase amount excluding sales tax, is rounded to the next highest dollar amount and does not include additional payments that may be required for an existing balance or future purchases. In order to pay your promotional balance by the end of the period, you may have to make a payment each month that is higher than your required minimum payment.
